

# Entering Trigger Assessment Scores

→ Open the Grade Book

## READING:

The screenshot shows the PowerSchool interface for the class "03(A) Reading 1 - 18-19". The left sidebar has the "Standards" option selected under the "Grades" section. The main area displays a grid for entering scores. Annotations include:

- 1. Select the appropriate Subject Area (yellow callout pointing to the top right)
- 2. Select "Standards" from the Grading Charm (red callout pointing to the sidebar)
- 3. Select the appropriate Reporting term. T1 = BOY Triggers, T2 = MOY Triggers, T3 = EOY Triggers. (purple callout pointing to the top right)
- 4a. Enter reading level under E.1.IRL (blue callout pointing to a column header)
- 4b. Enter scores under appropriate trigger assessment standards (blue callout pointing to a column header)
- 5. SAVE! (green callout pointing to the Save button)

- When entering ELA triggers, the actual number correct is entered, not the rubric score

## MATH:

The screenshot shows the PowerSchool interface for the class "06(A) Mathematics 1 - 18-19". The left sidebar has the "Standards" option selected under the "Grades" section. The main area displays a grid for entering scores. Annotations include:

- 1. Select the appropriate Subject Area (yellow callout pointing to the top right)
- 2. Select "Standards" from the Grading Charm (red callout pointing to the sidebar)
- 3. Select the appropriate Reporting term. T1 = BOY Triggers, T2 = MOY Triggers, T3 = EOY Triggers. (purple callout pointing to the top right)
- 4. Enter scores under appropriate trigger assessment standards (blue callout pointing to a column header)
- 5. SAVE! (green callout pointing to the Save button)

- Both ELA and Math triggers can be entered as an assignment as well, using the rubric for that standard.
