

Dear parents/guardians

We want to provide you with an update as to what to expect for you and your child, specifically regarding your ability to connect at certain times daily.

Students will be expected to be connected to their computer at specific times for a minimum of 3 hours each day. In addition, there will be independent, self-paced activities for your child to engage in outside of these scheduled connections, similar to a typical academic school day on-site. Paper packets will not be available, and attendance will be closely monitored.

We are including a teacher schedule for your child to assist in picturing what these times will look like:

8:30-9:00 scheduled interventions from your child's teacher, as needed.

9-10:30 LIVE connection to teacher/classroom.

10:30-12:00 self-paced/ independent work time through the learning boards.

12:00-12:30 scheduled interventions from your child's teacher, as needed.

12:30-1:30 LIVE connection to teacher/classroom.

1:30-3:00 self-paced/ independent work time through the learning boards.

***additional virtual meetings with the teacher may occur as student needs arise.*

We also want to clarify that while your child will have a qualified teacher in the district for distance learning, his/her teacher will likely **not** be a teacher from your current school.

Thank you for your patience as we work through all these details.
