

### **Education of Students Who Migrate**

A migrant child is defined under this policy as a child who is, or whose parent, spouse, or guardian is, a migratory agricultural worker, including a migratory dairy worker, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain temporary or seasonal employment has moved from one school district to another.

The Superintendent will develop and implement a program to ensure that students who are migratory receive appropriate services in the same manner as other students selected to receive services. The program shall contain a means to:

1. Identify students who are migratory and assess their educational and related health and social needs.
2. Provide a full range of services to students who are migratory including applicable Title I programs, special education, gifted education, vocational education, language programs, counseling programs, and elective classes.
3. Provide children of families who are migratory with the opportunity to meet the same statewide assessment standards that all children are expected to meet.
4. Provide advocacy and outreach programs to children who are migratory and their families and professional development for district staff.
5. Provide parent/guardians an opportunity for meaningful participation in their children's education.
