

Community Instructional Resources

Because the Board believes that one of the goals of the district shall be to equip each student to serve as a citizen of the community, it shall encourage administrative and instructional personnel to rely on the community as one of the educational tools at their command. The administration shall direct the development of a community instructional resource program designed to involve the citizens, the institutions, and the environment of the community in the education of its children.

The District will also work cooperatively with community libraries in order to provide appropriate student access to library materials available in the Bismarck/Mandan area.

Use of guest speakers shall comply with Policy GBBA.
