<p>12.1 Develop and execute a facilities plan that establishes priorities for construction, renovation and maintenance projects that:</p> <ul style="list-style-type: none"> a. Assign highest priority to the correction of unsafe conditions; b. Include maintenance costs as necessary to enable facilities to reach their intended life cycles; c. Plan for and schedule preventive maintenance; d. Plan for and schedule system replacement when new schools open, schools are renovated or systems replaced; e. ---	-----------------------------

Superintendent Interpretation: Facility plan means a comprehensive roofing, flooring, and pavement plan along with a preventative maintenance plan for building equipment. Safety of students, staff, and public will be a priority and be addressed as soon as possible. ---	----------------------

Superintendent Interpretation: All physical assets have a projected life. All maintenance plans and schedules must inform the budget process so that priorities can be evaluated. A systematic approach to documenting lifecycles of buildings, heating and cooling systems, roofs, floor coverings, building envelopes, and other systems must be an integral part of district budget planning (controllable and reallocation planning).

Indicator 1: Major systems will be inspected at least annually if not more frequent. These systems will be repaired and/or replaced as needed.	In Compliance
Evidence: The district maintains separate lists of equipment and will be combining all equipment into the Long-Range Facilities Plan this fiscal year.	

The Superintendent Shall:

12.3 Assure that facilities are safe, clean and properly maintained.	In Compliance
---	----------------------

Superintendent Interpretation: Safety of students, staff, and the public is a priority and must take precedence over any and all competing needs for time and resources. The board expects that buildings and grounds will be clean and well enough to meet community standards.

The Superintendent Shall:

<p>12.4 Consistently administer facilities use guidelines delineating:</p> <ul style="list-style-type: none"> a. Permitted uses; b. The applicable fee structure; c. Clear user expectations, including behavior, cleanup, security, insurance and damage repair; d. Consequences and enforcement procedures for public users who fail to follow the established rules. 	<p>In Compliance</p>
--	-----------------------------

Superintendent Interpretation: District facilities are owned by the taxpayers who paid for them; nevertheless district facilities must be dedicated for their primary purpose, which is education. For uses outside this primary focus, the board expects that there will be fair and consistently administered procedures that outline the conditions under which the facilities may be used.

<p>Indicator 1: Information on the facility rentals process is easily understandable and accessible to the community.</p>	<p>In Compliance</p>

Indicator 1: Construction and/or major renovation require school board authorization.	In Compliance
Evidence: The district is currently completing additions at Bismarck and Century High Schools, and Simle, Horizon, and Wachter Middle Schools. All the above projects were voter approved in 2017. The board approved the modernization and addition of four classrooms at Northridge Elementary School.
